Re:

**SB 423: AN ACT IMPROVING INDOOR AIR QUALITY IN PUBLIC SCHOOL CLASSROOMS.**

March 15, 2022

Good morning, Senator Kushner, Representative Porter, Senator Sampson, Representative Arora, and members of the Labor and Public Employees Committee.

I testify today in support of SB 423 and the establishment of school temperature and humidity limits and bonding for remediation and installation of modern HVAC systems. This bill would help reverse the impact of poor air quality in our schools that many don't see, but teachers and students experience every day.

When it is hot, in August, September, May and June, the classroom is stifling. By the afternoon no one wants to do any work and it takes so much more energy to teach as I'm dripping with sweat.

Thank you for addressing this critical issues impacting our students, our educators, and our school communities.
