

Testimony of

**Kelly Jasper**

**Fairfield Educator**

Before the

Education Committee

March 1, 2023

Good afternoon, Senator McCrory, Representative Currey, Senator Berthel, Representative McCarty, and members of the Education Committee.

I testify today in support of the caps on class sizes proposed in Senate Bill 1093, which would take an important step in ensuring that classrooms are places where students can learn, and educators can teach.

I am a teacher and I can truly say that class size matters! No longer are we teaching just one size fits all curriculum. It had to be tailored to each child. Plus the children of the day have specific needs that we address. If there are too many kids some of those kids fall through the cracks.

Thank you for your time and consideration.
